

REINVENT HOW THE WORLD CLEANS

Education

Cleaning solutions tailored to your needs.

The People & Places in Your Care

Universities and schools face challenges every day with cleanliness, quiet operation, student and staff health, and productivity. Tennant equipment can help you reduce your environmental footprint, meet your LEED goals, enhance your facilities' image, and manage your budgets – all at the same time.

Higher return on investment

More sustainable cleaning

Enhanced productivity

Improved health and safety

Exclusive Scrubbing Technologies

Tennant technologies help you enhance safety and productivity while reducing water and chemical use.

ec-H2O™ Technology

ec-H2O™ scrubbing technology improves productivity by scrubbing up to 3 times longer with a single tank. It uses less in chemicals and packaging, and up to 70% less water than conventional methods, reducing the environmental impact of daily cleaning and maintenance activities. It also improves safety for both passers-by and operators.

ReadySpace®

ReadySpace® rapid-drying carpet cleaning technology provides clean, fresh carpets in minutes to reduce room and carpet area closure times. It uses up to 80% less water and leaves up to 90% less water in the carpet while reducing the potential for mold and bacteria growth – resulting in cleaner, healthier carpeted spaces. And because ReadySpace® doesn't saturate carpets, rooms and hallways are ready for traffic in as few as 30 minutes

ES® Extended Scrubbing

This unique technology recycles cleaning solutions, up to three times, which helps decrease water consumption and detergent resulting in a safer, more cost-effective clean. As well as enhancing productivity, it uses up to 66% less in chemicals than conventional cleaning methods.

Tailored to fit your facilities

Our in-depth knowledge of education facilities means we can offer you benefits that are tailored to your unique needs.

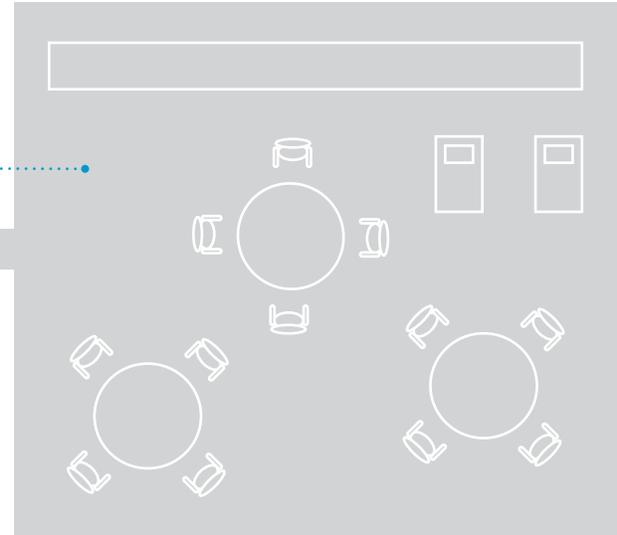

Restrooms

Scrubbers that offer the maneuverability of a mop with a cleaner clean

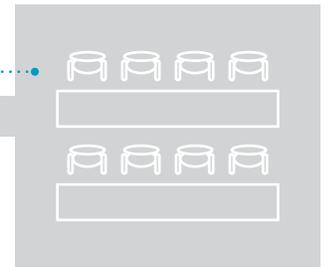

Cafeterias

Reliable machines provide high performance in tough environments

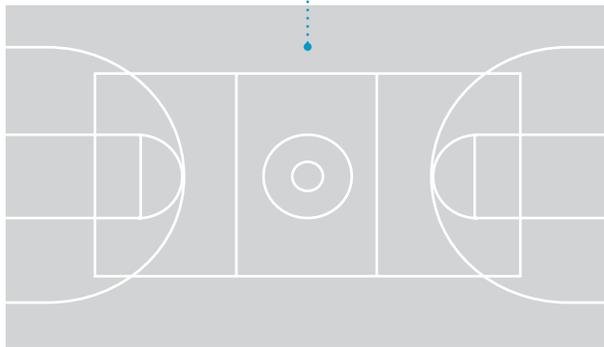

Classrooms, Labs and Auditoriums

Quick, quiet and easy to use vacuums and maneuverable scrubbers are ideal in confined spaces and under furniture.

Gymnasiums

Walk-behind, ride-on and robotic scrubbers keep floors bright and safe

Hallways

Versatile sweepers and scrubbers feature unique technologies

Parking and Outdoor Areas

Easy operation sweepers clean outdoor areas thoroughly

Classrooms, Labs and Auditoriums

Cleaner facilities have higher morale, lower absenteeism, and higher performance. Create the learning environment your staff and students deserve.

CLEAN VIRTUALLY ANY HARD SURFACE

T300/T300e

WALK-BEHIND SCRUBBER

Clean virtually any hard surface, including porous stone, grout and finished concrete with the Tennant T300 / T300e high performance walk-behind floor scrubbers. Keep every area of your facility clean and well-maintained with an affordable, battery-powered, walk-behind floor scrubber designed for versatility.

- Delivering high performance, consistent results for virtually any hard surface condition while lowering cleaning costs.
- Offers multiple machine head types to fit your cleaning applications and optimize cleaning performance for specific areas – single disk, dual disk, dual cylindrical, and orbital.

HIGH PERFORMANCE DELIVERS HIGH SHINE

B5

BATTERY BURNISHER

A battery-powered, walk-behind burnisher built for productive use. Important maintenance points are bright yellow for easy identification. On-board reference materials help reduce equipment breakdowns.

- HEPA filtration system traps small dust particles to help improve indoor air quality
- 90° flip-up head allows a safe ergonomic position when changing the pad
- Actuated or optional Set and Forget™ down pressures make settings easy

MAINTAIN INDOOR AIR QUALITY WITH HEPA FILTRATION

V-DMU-14

DUAL MOTOR UPRIGHT VACUUM

This dependable dual motor vacuum has been delivering powerful performance in commercial applications for more than 10 years.

- Durable construction and lifetime belt warranty help cut operating costs
- Low noise levels and HEPA 3-stage filtration are ideal for indoor environments
- All-round versatility makes cleaning easy on multiple surfaces

CLEAN HARD-TO-REACH AREAS WITH EASE

CS5

MICRO-SCRUBBER

This innovative, 21st century scrubber eliminates many of the challenges of traditional mop and bucket cleaning. Instead of pushing around dirty water, the CS5's separate solution and recovery tanks deliver fresh water for scrubbing.

- The small size and portable design make it as convenient as a mop and bucket, but it cleans and dries faster.
- Powered by a lightweight and compact lithium battery.
- Reverse dry system eliminates the need to turn allowing for cleaning in tight spaces.

Cafeterias

Keep your common areas clean and bright. Our compact, maneuverable machines are designed to help you maintain hard surfaces of all kinds.

OUTSTANDING RESTORATIVE CLEANING PERFORMANCE

INCREASE PRODUCTIVITY BY CLEANING MULTIPLE SURFACES

Q12

MULTI-SURFACE CLEANER

This multi-surface cleaner restores tile, grout and other hard surfaces efficiently. Its control panel is easy to understand and reduces training requirements. All required tools are stored on-board, reducing set-up, breakdown and transport time.

- Powerful 3-stage vacuum motor maximizes water recovery
- Dual rotating jets deliver 2.2 GPM of solution flow at 1200 PSI
- Easy access fill port and stretch hose reduce the risk of operator strain
- Integrated lift handles and transport rollers make the Q12 easy to move

ASC-15

ALL - SURFACE CLEANER

Featuring a no-touch process, this all-surface cleaner provides more efficient hard surface cleaning than mops and buckets. It cleans, rinses, blow-dries and recovers dirty water while protecting operators. Can be used for cleaning sinks, shower stalls, urinals, locker rooms, restrooms, stairwells and other non-porous surfaces.

- Includes 10 tools and accessories, including a telescopic vacuum wand and a separate, expandable clean air-blower hose
- 15 gal/56.7 L solution tank and 19 gal/71.9 L recovery tank allow long run times for high productivity
- Drop-down drain hose or power pump-out system makes it easy for operators to empty the tank

GET A DEPENDABLE CLEAN AND INCREASE PRODUCTIVITY

T390 WALK-BEHIND SCURBBER

Get a dependable clean without sacrificing productivity. The T390 is a straightforward scrubber that allows for quick clean with its 28 in / 700 mm dual disk scrub path. This self-propelled floor scrubber's maneuverability is ideal for medium-sized spaces found in schools, hospitals and retail stores.

- Scrub deck made out of tough steel material, with roller guide wheels to protect the facility
- Increase productivity with the dual disk cleaning path while still having the maneuverability of a mid-size scrubber
- Yellow touch points help reduce breakdowns by simplifying preventative maintenance

ROBOTIC SCRUBBER DESIGNED TO WORK ALONGSIDE EMPLOYEES

T380AMR ROBOTIC FLOOR SCURBBER

Increase productivity, maintain a high standard of cleaning, and effectively clean narrow aisles and spaces with the T380AMR, a compact robotic floor cleaning machine. This robotic floor scrubber is specifically designed for autonomous cleaning, working safely alongside employees and customers, while navigating around obstacles.

- Specifically designed for robotics, this AMR product provides maximum productivity with 20" deck size and 20 gallon solution tanks
- Highly maneuverable robotic scrubber for areas that require tighter turns
- Delivers best-in-class cleaning performance with up to 90 lbs of down pressure and excellent water recovery with squeegee located directly behind scrub deck

Gymnasiums

Caring for your gymnasium flooring properly will keep it looking good and help extend its life. No matter the size of your indoor athletic facilities, we have a scrubber to match.

A ROBOTIC SOLUTION THAT GIVES TIME BACK TO EMPLOYEES

EASY-TO-USE HEAVY-DUTY FLOOR SCRUBBER

T7AMR

ROBOTIC RIDER SCRUBBER

Address labor challenges, drive efficiencies and maintain a high standard of cleaning with the T7AMR, a robotic solution designed to work safely and efficiently alongside employees. Reduce the amount of detergent and water needed with optional ec-H2O NanoClean® technology. The T7AMR is powered by BrainOS®, an advanced artificial intelligence and robotic technology platform, from Tennant partner Brain Corporation.

- Address labor challenges, drive efficiencies and maintain a high standard of cleaning
- Teach and repeat model ensures consistent cleaning performance
- Leverage data to optimize your cleaning operations

T12

COMPACT BATTERY - POWERED RIDER SCRUBBER

This compact, maneuverable rider scrubber offers heavy-duty power with easy maneuverability and a tight turning radius. Features exclusive ec-H2O™ technology and the Dura-Trak™ parabolic squeegee system.

- Optional scrubbing side-brush makes the cleaning path 28 percent wider
- Long battery life and high-capacity solution tank reduce time needed for refilling

Parking and Outdoor Areas

Maintain litter-free sidewalks, grounds and borders. Clean large outdoor areas even when students are present. Make great first impressions with students, families and visitors.

SWEEP VIRTUALLY ANYTIME, ANYWHERE

BIG PRODUCTIVITY AND VERSATILITY

DELIVER IMPRESSIVE PERFORMANCE

S6 /S7

BATTERY SWEEPER

Clean both hard floors and carpeted spaces with the versatile, quiet and efficient S6 and S7 walk-behind battery-operated sweepers.

- Automatically adjusting main brush allows ease of operation between hard or soft floor surfaces
- Auto timed filter shake feature initiates every 3 minutes or can be engaged at any time from the console
- Unit has two sweeping modes – one for light debris collection and another for heavy debris selection

S16

COMPACT BATTERY - POWERED RIDE-ON SWEEPER

This ride-on vacuum provides exceptional litter pick-up to improve the image of your community. It cleans on any terrain, climbs curbs, navigates hills, and cleans along fence lines.

- Low center of gravity, reliable disc brakes, and roll-over protection for safety
- 48 inch (1.2 m) vacuum head provides a wide cleaning path to improve productivity
- Ergonomic vacuum hose reaches up to 270 degrees to clean hard-to-reach areas

S20

COMPACT MID-SIZED RIDER SWEEPER

This compact ride-on sweeper combines mid-sized power and ride-on maneuverability. A battery version is also available for extra-quiet operation.

- SweepMax™ dust control system provides optimal air flow filtration
- Thermo-Sentry™ sensors protect the machine if hopper temperatures increase
- ShakeMax™ 360 filter cleaning dislodges dust particles trapped deep within the pleats

Hallways

Protect your reputation for high standards and attention to detail. Our industry-leading technologies leave clean carpeted and hard floors dry and ready for traffic.

COMPACT AND EASY-TO-MANEUVER

T290

WALK-BEHIND SCRUBBER

A straight-forward commercial floor scrubber that works to reduce the cost to clean while still providing dependable performance. This 20 in / 500 mm scrubber is compact and easy-to-maneuver with pad assist or self-propel operation.

- Robust construction in a compact scrubber with easy-to-use pad assist or self-propel configuration.
- Avoid kneeling to put the brush on, with hands-free brush replacement with spin-on, spin-off feature.
- Yellow touch points help reduce breakdowns by simplifying preventative maintenance.

IMPROVE OPERATOR PRODUCTIVITY

T7

MICRO-RIDER FLOOR SCRUBBER

This compact and highly maneuverable micro rider auto scrubber allows efficient cleaning of tight spaces. It leaves floors of all sizes clean, dry and safe for traffic in seconds. Available with either disc or cylindrical brushes, and with cleaning paths up to 32 inches.

- Available with ec-H2O™ or FaST® foam-activated scrubbing technology
- Equal-pressure, parabolic squeegee leaves no cleaning solution behind
- Low noise level (67 dBA) allows use during normal activities

ACHIEVE CONSISTENT RESULTS

B7

BATTERY BURNISHER

A battery-powered, walk-behind burnisher built for productive use. Important maintenance points are bright yellow for easy identification. On-board reference materials help reduce equipment breakdowns.

- HEPA filtration system traps small dust particles to help improve indoor air quality
- 90° flip-up head allows a safe ergonomic position when changing the pad
- Actuated or optional Set and Forget™ down pressures

Restrooms & Small Spaces

Keep restrooms sparkling clean with innovative equipment that offers the maneuverability of a mop with the cleaning performance of a walk-behind scrubber. Clean tight areas with ease and ensure spaces are dry and ready for traffic.

GET A CLEANER, SAFER, DRIER FLOOR

QUIET, COMPACT EFFECTIVE SCRUBBER

CLEAN WITH FREEDOM OF MOVEMENT

CS5

MICRO SCRUBBER

This innovative, 21st century scrubber eliminates many of the challenges of traditional mop and bucket cleaning. Instead of pushing around dirty water, the CS5's separate solution and recovery tanks deliver fresh water for scrubbing.

- The small size and portable design make it as convenient as a mop and bucket, but it cleans and dries faster.
- Powered by a lightweight and compact lithium battery.
- Reverse dry system eliminates the need to turn allowing for cleaning in tight spaces.

T1 / T1B

WALK-BEHIND MICRO SCRUBBER

Thoroughly and effortlessly clean hard floors in forward and reverse with the highly maneuverable and ergonomic T1 and T1B walk-behind micro scrubber. The 15 in / 380 mm cleaning path on this compact scrubber easily fits through confined spaces for inspection-ready facilities.

- Clean small, tight, hard-to-reach spaces with compact, maneuverable design.
- Reduce operator fatigue and improve productivity with Insta-Adjust™ ergonomic handle.
- Reduce risk of slip-and-fall accidents with excellent water recovery.

i-mop® XL Plus / XXL Plus SCRUBBER

The maneuverability of a mop with the cleaning performance of a walk-behind floor scrubber. The i-mop® XL / XXL Plus makes it possible to clean any surface with freedom of movement and great ease of use. No borders or boundaries. This machine isn't just designed for cleaning, it is designed for the cleaner.

- Performance of a scrubber with the mobility of a mop.
- Reduce labor costs - up to 10 times faster than a mop & bucket.
- Leave nearly instantaneous dry floors with water recovery.

The service you need **wherever you are.**

No matter how you use your equipment, we have you covered. Highly skilled and factory trained Tennant service technicians are available to handle all your maintenance needs.

Tailored Service Agreements

Our team can help you decide which service agreement is best for your needs. Whether your top priority is maximum uptime, quick response or preventive maintenance, we have a package to suit you.

Predictable Cost of Ownership

Our comprehensive service offering is designed to protect your investment and reduce your total cost of ownership. In addition, costs are predictable for easier budgeting.

Tennant *True*® Parts and Consumables

Expect top quality from our machines, parts and consumables. They are precisely designed to enhance results and improve your cleaning productivity. All Tennant parts and consumables are widely available, easy to order and delivered quickly.

Professional Customer Support

Our customer support team is available during business hours on weekdays and weekends to help you to order parts or schedule a service visit.

Making **high-performance** floor cleaning machines affordable.

At Tennant, we recognize you have unique needs in floor cleaning equipment as well as specific demands on your financial resources. A Tennant Sales Representative can help you decide if leasing or financing is a good fit for you and then guide you through the process.

Short and Long-Term Rental

If you have a temporary need for a scrubber-dryer, sweeping machine or outdoor sweeper, we can provide you with a short or long-term rental agreement. A fleet of machines is available with sizes ranging from smaller commercial machines to larger scrubber-dryers and outdoor sweepers.

Reconditioned Machines

As well as a comprehensive range of new machines, Tennant has one of the largest pre-owned inventories in the industry. You can be confident in your purchase. Our used machines are rigorously inspected, tested and “Tennant Certified” by factory-trained technicians.

Financing

If you're not ready to invest fully in new equipment, we make it more affordable by offering flexible, convenient financing options together with established leasing partners.

Choose the right machine to meet every customer's needs.

Tennant – Reinvent how the world cleans

With a vision to become a global leader in sustainable cleaning innovation that empowers our customers to create a cleaner, safer and healthier world, Tennant creates solutions that are changing the way the world cleans.

We are where you are

Tennant has the industry's largest direct sales and service organization and a well-supported network of authorized distributors worldwide.

Solutions for your unique needs

Whatever your cleaning needs, Tennant offers a variety of high quality equipment to help you increase your cleaning productivity.

Buying, leasing, renting

We offer flexible options to get you the machines you need, however you need them.

TennantTrue®

Optimize equipment performance and protect your investment with TennantTrue® parts and service.
